DEAR HIRING MANAGER

I would like to express my sincere interest to join your innovative IT company as a Junior Frontend Developer. Now I am actively acquiring skills and knowledge in the field of web development and want to develop in your team.

I recently successfully completed a course at Golt where I focused on learning HTML, CSS and React JS. This course gave me a stable foundation for development as a Frontend Developer. Having the basic knowledge, I am now ready to gain work experience and focus my efforts on solving real tasks from your company. I see your company as a great opportunity for my professional growth, as it gives novice developers like me the chance to work under the guidance of experienced professionals and collaborate with a high-quality project team.

My important advantage is the ability to learn quickly, to be passionate about web development and the implementation of modern technologies. I also have experience working collaboratively in a team, which has helped me learn to communicate and collaborate effectively with colleagues.

I am ready to put my best effort into your projects and solve tasks to become a valuable member of your team. I am confident in my ability to contribute to the success of (company name) and would be happy to discuss my skills and experience.

I have attached my resume for your review, and I am looking forward to an interview opportunity. Thank you for your consideration, and I look forward to joining your IT company and working with you.

Sincerely,

*Khristyna.*
